

LINKÖPING UNIVERSITY

CURRICULUM VITAE

Dr. EMIL BJÖRNSSON

emil.bjornsson@liu.se

+46-(0)13-286732

Linköping University
Department of Electrical Engineering (ISY)
Division of Communication Systems
SE-581 83 Linköping
Sweden

EDUCATION

Doctor of Philosophy in Telecommunications

Feb 2007 – Dec 2011

KTH Royal Institute of Technology, Stockholm, Sweden.

Thesis title: *Multiantenna Cellular Communications: Channel Estimation, Feedback, and Resource Allocation.*

Research topics: Multi-antenna cellular communications, multi-user resource allocation with limited channel information, estimation theory, stochastic signal processing, and mathematical optimization.

Supervisors: Björn Ottersten and Mats Bengtsson.

Master of Science in Engineering Mathematics

Sep 2002 – Jan 2007

Lund University, Lund, Sweden.

Programme in pure and applied mathematics with specialization in signals, images, and systems.

Average grade: 4.9 out of 5.0. I had extra course credits corresponding to one extra year of studies.

Thesis title: *Beamforming Utilizing Channel Norm Feedback in Multiuser MIMO Systems.*

ACADEMIC POSITIONS

Associate Professor (Senior Lecturer), Communication Systems

Jan 2016 – [Ongoing]

Linköping University, Linköping, Sweden.

I am employed as Senior Lecturer, which is an associate professor position with tenure (called *universitetslektor* in Sweden) at Linköping University. I work at the Division of Communication Systems, headed by Prof. Erik G. Larsson, at the Department of Electrical Engineering (ISY). Current research interests are multi-antenna cellular communications, massive MIMO techniques, radio resource management, energy efficient communications, multi-objective optimization theory, and network topology design.

Assistant Professor (Research Fellow), Communication Systems

Jan 2014 – Dec 2015

Linköping University, Linköping, Sweden.

I was employed as *Research Fellow*, which is an assistant professor position (called *biträdande universitetslektor* in Sweden) in the tenure-track at Linköping University. I worked at the Department of Electrical Engineering (ISY) with research, undergraduate teaching, and supervision of doctoral students.

Post-Doc, Alcatel-Lucent Chair on Flexible Radio

Sep 2012 – July 2014

Ecole supérieure d'électricité (SUPELEC), Gif-sur-Yvette, France.

I conducted postdoctoral research within the topic “Optimization of Green Small-Cell Telecommunication Networks”. I was sponsored by an International Postdoc Grant that I received from the Swedish Research Council (Vetenskapsrådet). Main hosts at SUPELEC: Mérouane Debbah and Marios Kountouris.

Post-Doc, Signal Processing Lab, School of Electrical Engineering

Dec 2011 – July 2014

KTH Royal Institute of Technology, Stockholm, Sweden.

The first part (until Sept. 2012) consisted of independent research on “Optimal Resource Allocation in Coordinated Multi-Cell Systems” and resulted in a scientific book with that title. During the second part (Sept. 2012 to July 2014), KTH served as my Swedish “home university” for the international postdoc grant “Optimization of Green Small-Cell Telecommunication Networks” from the Swedish Research Council (Vetenskapsrådet). The postdoc research was conducted at SUPELEC, France.

EDUCATIONAL EXPERIENCE

Docent Title

I received the Docent title from Linköping University in Feb. 2015. This is the second highest grade in the Swedish academic system, and the docent title is required to be main supervisor of doctoral students.

Courses in Teaching

- “*Research supervision – Advanced Course in Higher Education Pedagogy*” (4 credits), Linköping University.
- “*Basic Communication and Teaching*” (3 credits) and “*Learning and Teaching*” (7.5 credits), KTH.

Teaching Experience

I am currently course director, examiner, and lecturer in the following courses at Linköping University:

- *TSKS01 Digital Communication* (2015-), Master level.
- *TSKS04 Digital Communication Continuation Course* (2015-2016), Master level.
- *TSKS12 Multiple Antenna Communications* (2017-), Master level.
- *TSRT04 Introduction in Matlab* (2014-), Bachelor level.

I have previously been involved in the following courses:

- *Fundamentals of Massive MIMO* (2016), PhD level, lecturer.
- *Telecommunication* (2014), Bachelor level, course director and lecturer.
- *Matrix Algebra* (2012), PhD level, lecturer.
- *Signal Theory* and *Signals and Systems II* (2007–2010), Master and Bachelor level, teaching assistant.
- *Signals and Communications* (2006), Bachelor level, teaching assistant and course development.
- *Calculus in One Variable*, *Calculus in Several Variables*, *Linear Algebra*, and *Computational methods* (2003–2006), Bachelor level, teaching assistant and exam correction.

I have supervised and acted as examiner on several Master’s degree projects:

- 2015-2017: Examiner of four Master’s degree projects, Linköping University.
- 2008-2009: Supervisor for two Master’s degree projects, KTH.

Research Supervision

I am currently main supervisor of two doctoral students at Linköping University:

- Trinh Van Chien, since Mar. 2015.
- Daniel Morano Verenzuela, since Apr. 2015.

I am currently assistant supervisor of two doctoral students at Linköping University:

- Marcus Karlsson, since Jan. 2015.
- Hei Victor Cheng, since Jan. 2015.

I have previously been an assistant supervisor of

- Dr. Antonios Pitarokoilis, graduated June 2016, Linköping University.
- Dr. Axel Müller, graduated Nov. 2014, SUPELEC.

I have also acted as informal assistant supervisor of 5 doctoral students.

I have acted as advisor for the following postdocs at Linköping University:

- Salil Kashyap 2014-2016.
- Julia Vinogradova, 2015-2016.
- Tan Tai Do, 2016.
- Zheng Chen, 2017-.
- Kamil Senel, 2017-.

Teaching Material

- Emil Björnson, Eduard Jorswieck, “*Optimal Resource Allocation in Coordinated Multi-Cell Systems*” (270 pages), published in the prestigious book series Foundations and Trends® in Communications and Information Theory, 2013. This book is suitable as course material for doctoral students.
- Mikael Olofsson, Emil Björnson, “Introduction to Digital Communication” (200 pages), published locally at Linköping University. This book is used in the Master course *TSKS01 Digital Communication*.
- I have produced course material for multiple three-hour tutorials at international conferences: IEEE PIMRC 2013, IEEE ICC 2014, IEEE ICC 2015, IEEE SPAWC 2015, GLOBECOM 2016. This material consists of detailed slides with overview material, suitable for doctoral students.

Leadership in Educational Programmes

Since 2016 I am the director of the Master’s programme in Communication Systems and the director of the Communication profile for Swedish engineering students at Linköping University. I have proposed and implemented a major modernization of the course curriculum, effective from 2017.

SCIENTIFIC EXPERIENCE

Research Grants

- *Jan 2016 - Dec 2019*: I have received funding from the Swedish Research Council (VR) for the project “*Optimized Design of Wireless Networks with Multiple Performance Metrics*”.
- *Sept 2015 - Aug 2018*: I have received the 2015 Ingvar Carlsson Award from the Swedish Foundation for Strategic Research (SFF) for the project “*Holistic energy efficiency optimization in cellular networks*”.
- *Jan 2015 - Dec 2017*: I have received funding from CENIIT for the project “*Radio Resource Management in Massive MIMO Communication Systems*”.
- *Sept 2012 - July 2014*: I was one of the first recipients of the International Postdoc Grant from the Swedish Research Council (VR). This grant funded a 2-year postdoc position at SUPELEC, France.

Inventions

I am a co-inventor in 10 patent applications related to multi-antenna communication technology. 8 applications were filed in 2016 and 2 applications were filed in 2015. These inventions have been made in

collaboration with Ericsson Research.

Scientific Publications

I have published the following (and additional papers are under review):

- 1 scientific book and 1 book chapter
- 4 overview magazine articles
- 43 international journal articles
- 86 conference papers

These publications have received 3426 citations, whereof one article has 291 citations and my first book has 193 citations. These citations correspond to an *h*-index of 27 (source: [Google Scholar](#), 4 Sept. 2017).

Open and Reproducible Research

I am an active promoter of reproducibility of research results and of open publishing. I have made simulation code freely and publically available for more than 20 scientific publications, including my book from 2013. Most of the code is available here: <https://github.com/emilbjornson>

Editor in International Journals

- I have been an associate editor of *IEEE Transactions on Communications* since 2017.
- I have been an associate editor of *IEEE Transactions on Green Communications and Networking* since it was founded in 2016. I was an associate editor of the *Journal on Selected Areas in Communications (JSAC)*, series on *Green Communications and Networking*, 2015-2016.

Involvement in International Research Projects

- I was a task leader for T1.1 and T3.1 in the project European project MAMMOET (FP7), 2014-2016.
- Many of my research papers are published within European research projects: METIS (FP7), MORE (ERC), HIATUS (FP7), AMIMOS (ERC), COOPCOM (FP6), and WINNER+ (Celtic).

Invited and Tutorial Speeches (selection)

- Tutorial speaker at the IEEE Global Communications Conference (GLOBECOM), Washington D.C., USA, December 2016.
- Tutorial speaker at the 5Gwireless Training Event, Dresden, Germany, September 2016.
- Tutorial speaker at the Tyrrhenian International Workshop on Digital Communications, Livorno, Italy, September 2016.
- Tutorial speaker at the IEEE Workshop on Signal Processing Advances in Wireless Communications (SPAWC), Stockholm, Sweden, June 2015.
- Tutorial speaker at the IEEE International Conference on Communications (ICC), London, UK, June 2015.
- Keynote speaker at International Workshop on Computer-Aided Modeling Analysis and Design of Communication Links and Networks (CAMAD), Athens, Greece, December 2014.
- Lecturer at 5GrEEEn Summer School on “Energy Efficient Mobile Networks”, Stockholm, Sweden, August 2014.
- Tutorial speaker at the IEEE International Conference on Communications (ICC), Sydney, Australia, June 2014.
- Keynote speaker at the Workshop on Wireless Evolution Beyond 2020, Istanbul, Turkey, April 2014.
- Lecturer at Newcom# Spring School on “Advanced Signal Processing Techniques for Heterogeneous Networks”, Pisa, Italy, March 2014.
- Invited speaker at Greentouch Open Forum, Paris, France, November 2013.
- Tutorial speaker at the IEEE Symposium on Personal, Indoor, Mobile and Radio Communications (PIMRC), London, UK, September 2013.

- Keynote speaker at the workshop “Signal Processing and Optimization for Wireless Communications: In Memory of Are Hjørungnes”, Trondheim, Norway, May 2013.

Popular Science Activities

- I gave a talk about “Claude Shannon 100 year: From information theory to information technology” at the Science Day for high school teachers, Linköping, October 2016.
- I wrote an article about “10 myths on Massive MIMO” in Elektroniktidningen, February 2016.
- I gave several talks about future cellular networks at the Science Day for high school teachers and during the Popular Science week for high school students, Linköping, October 2015.
- I gave an interview on the Swedish radio (P4 Östergötland) about “5G versus fiber”, September 2015.

Committees and Organization

- I am a member of the Signal Processing for Communications and Networking Technical Committee (SPCOM-TC), 2017-.
- I serve as the Technical Program Chair of the 2017 Joint IEEE SPS and EURASIP Summer School on Signal Processing for 5G Wireless Access, May 29 - June 1, Gothenburg, Sweden, 2017.
- I co-organized the Massive MIMO Communications Symposium at IEEE Global Conference on Signal and Information Processing (GlobalSIP), December 3-5, Atlanta, Georgia, 2014.
- I served as a Vice-Chair of Local Arrangements at IEEE Swedish Communication Technologies Workshop (Swe-CTW), October 19-21, Stockholm, Sweden, 2011.
- I have been a member of Technical Program Committees at the conferences GLOBECOM 2014-2017, ICC 2015-2017, ICC 2013-2014, PIMRC 2013, 2016-2017, SPAWC 2017, WCSP 2012-2014, and WCNC 2015-2017.
- I have acted as session chair at the conferences ICC (2014, 2016, 2017), GLOBECOM (2012, 2015), GlobalSIP (2014), PIMRC (2013), and VTC-Spring (2015).

Assignments as Scientific Expert

- Opponent of the licentiate dissertation by Demia Della Penda, at the KTH Royal Institute of Technology, Sweden (March 2016).
- Opponent of the doctoral dissertation by Janis Werner, at the Tampere University of Technology, Finland (November 2015).
- Member of 2015 review panel on “Signal and image processing and acoustics”, Academy of Finland.

Reviewer in International Journals and Conferences

- I am a recurring reviewer of journal articles in IEEE Transactions on Signal Processing, IEEE Transactions on Wireless Communications, IEEE Transactions on Communications, IEEE Transactions on Vehicular Technology, IEEE Access, IEEE Communication Magazine, IEEE Communications Letters, and IEEE Signal Processing Letters. I have received recognition as an Exemplary Reviewer several times (see below).
- I am a recurring reviewer of papers at high-quality international IEEE conferences such as GLOBECOM, ICC, PIMRC, SPAWC, VTC and WCNC.

HONORS & AWARDS

2016 EURASIP Best PhD Award: The European Signal Processing Association as selected my PhD thesis for this award, which is given at EUSIPCO 2016.

2015 Ingvar Carlsson Award: I was selected by the Swedish Foundation for Strategic Research to a competitive programme that gives homecoming postdocs funding to launch their own independent and creative research careers in Sweden.

Best Paper Award (second author): 2015 IEEE International Conference on Communications (ICC), for work on load balancing and precoding in cellular networks.

2014 IEEE ComSoc Outstanding Young Researcher: Awarded by the IEEE ComSoc EMEA Region Committee for “promising research activities for the benefit of the society”.

Best Paper Award (first author): 2014 IEEE Wireless Communications and Networking Conference (WCNC), for work on energy efficiency and massive MIMO communications.

Best Student Paper Award (third author, 2nd prize): 2014 IEEE Sensor Array and Multichannel Signal Processing Workshop (SAM), for work on massive MIMO communications.

Exemplary Reviewer in IEEE Transaction on Communications: Selected in 2015 and 2016.

Exemplary Reviewer in IEEE Communications Letters: Selected three years in a row: 2012-2014.

Best Student Paper Award (first author): 2011 IEEE International Workshop on Computational Advances in Multi-Sensor Adaptive Processing (CAMSAP) for work on precoding in cellular networks.

Best Paper Award (first author): 2009 International Conference on Wireless Communications and Signal Processing (WCSP) for work on cooperative multicell and multiantenna communication.

Guest Researcher: Received grant as guest researcher at the Department of Signals and Systems (S2), Chalmers University of Technology, Sweden, in the Spring 2013.

Travel Scholarships: Received several competitive scholarships for participating in scientific conferences during the doctoral studies (awarded from Ericsson Research Foundation and from Pleijel-fonden).

2006 DigSigProject Challenge: First place in course competition on programming for DSP cards, during Master of Science studies. Texas Instruments sponsored the competition.

2005 Algorithm Implementation Course Competition: First place in course competition on efficient programming, during Master of Science studies.

ADDITIONAL EXPERIENCE

Developer in Computer Vision,

Jun 2006 – Aug 2006

Axis Communications AB, Lund, Sweden.

Axis Communications is a global market leader in network video. The employment consisted of evaluation and research regarding image processing and motion detection for digital video surveillance cameras.

Writer, Photographer, Layout Man, and Equal Opportunities Ombudsman, Jan 2004 – Sep 2006

Student Union at Lund University, Faculty of Engineering, Lund, Sweden.

I was involved in the student papers *Pålsjö Ängsblad* and *vonTänen* at Lund University. The former was distributed to 8,000 students. I was also involved in course evaluation as student representative, I was student representative in the Mathematics LTH counsel, and I acted as Equal Opportunities Ombudsman in the society of Engineering Physics, Mathematics, and Nano Technology.

Freelancing Project Leader and Creative Writer

Apr 2000 – Sep 2005, Oct 2007 – Apr 2009

Neogames AB, Gothenburg, Sweden.

I participated in the development of several books to *Eon* and *Neotech*, two of the largest role playing games in Sweden. The work was mostly been performed in the summer time. I acted as project leader and leading writer for three A4 books: *Showdown: Berlin* (32 pages), *Neotech Euro* (64 pages), and *Krigsherren* (128 pages). I was also involved as co-writer in *Eon III*, *Geographica Mundana*, and *Legender & hemligheter*, and as proofreader in *Encyclopedia Mundana*, *Eon II*, *Neotech II*, *Neotech Ultra*, and *Riddaren*.

Society Chairman and Webmaster of Gaming Convention,

Feb 1996 – May 2010

Swedish Association of Role Playing and Gaming (Sverok), Malmö and Linköping, Sweden.

I was chairman of a member society *Gandalfs Glada Gossar (GGG)* of Sverok, co-author of eight roleplaying scenarios played on various national gaming conventions, and webmaster of the convention *LinCon*.
